

COMMITMENTS

We take on the challenge and the responsibility to make our dream a reality, promoting and supporting all the options and actions that will help us make our Charism alive today. We have Jesus in Nazareth and our founders as reference.

We are willing to live in multicultural and plurilingual communities, to be trained and assume the leadership role that will be asked of us at this moment of the Congregation, promoting communities that foster our dreams, face the challenges and support projects in line with the Charism (poor working women, preservar, industria cristiana...) open to share with the Lay Josephines and committed to vocation promotion.

For this we need to support one another as a generation, give continuity to all our lived experiences, network, share experiences, reflect together, searching concrete channels that will help to strengthen us in daily life and make changes possible, face challenges and generate life.
